MAHINDRA FURIO – A BIG LEAP FOR INDIAN TRANSPORT.

This truck has everything it needs to transform the entire transport industry in India. Styled at the famous Italian automobile design and engineering company, Pininfarina, the Mahindra FURIO is crafted with striking looks and gives the assurance of outstanding performance. This proud addition to our truck range marks a new dawn for the Intermediate Commercial Vehicle (ICV) category and makes Mahindra a full range commercial vehicle player.

pininfarina

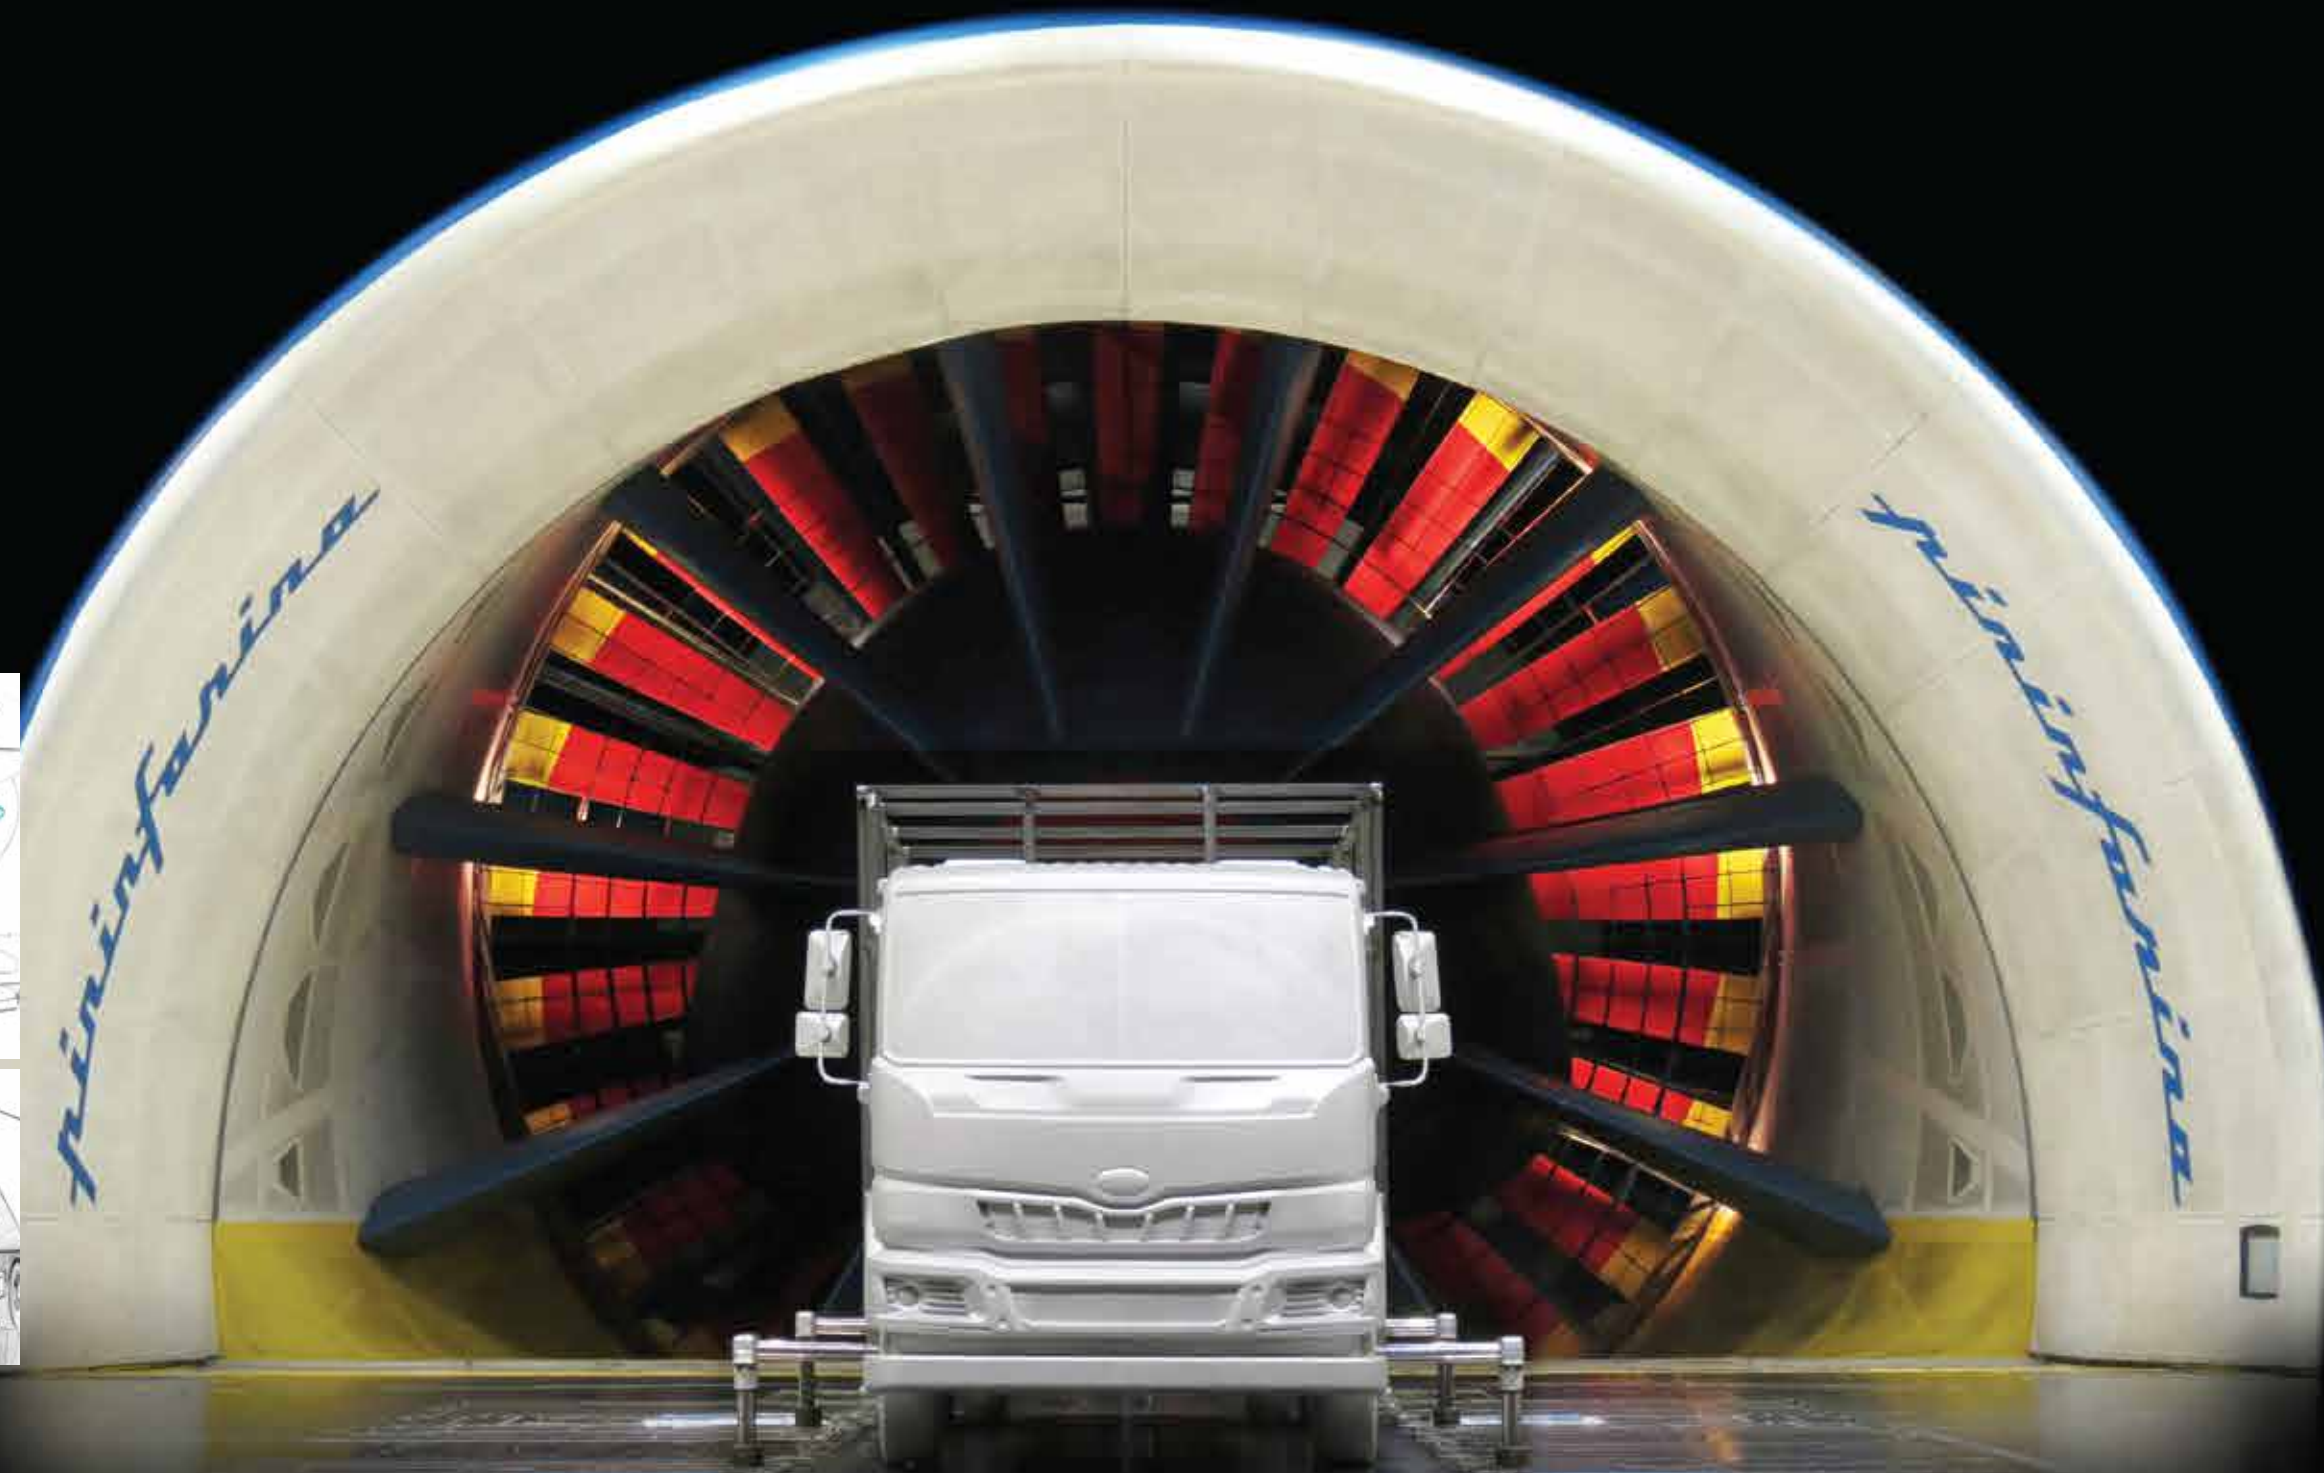

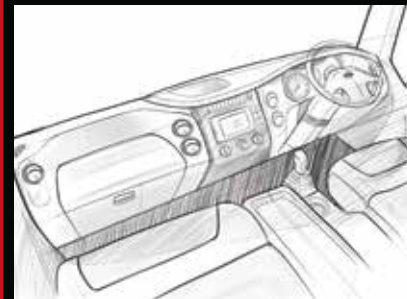

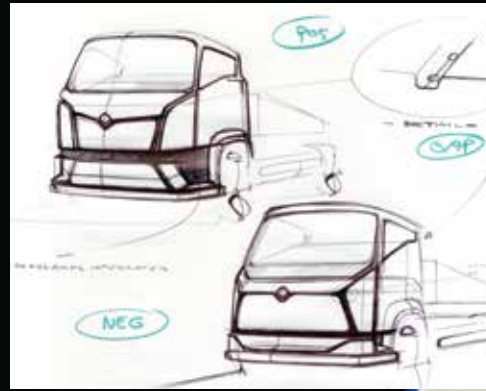

The design arm of Mahindra

INDIAN GRIT MEETS ITALIAN FLAIR.

Pininfarina in Italy is the design arm of Mahindra and one of the greatest names in automotive design. Their rich legacy of over 8 decades is steeped in innovation and impeccable design. They have designed several legendary car brands across the globe. And their touch of class extends beyond the automobile segment. They have brought to life high-speed trains, yachts, airplanes and even private jets.

The latest addition to their illustrious achievements is the Mahindra FURIO. In fact, Mahindra Truck and Bus and Pininfarina collaborated to create a ground-breaking truck in the ICV category. The result is a vehicle that integrates style, function and innovation; the fundamentals of Pininfarina.

The Pininfarina design team have designed a new brand image for this range of ICVs. They have evolved Mahindra's trucking DNA by adding modern features and bringing a distinctiveness in style. The exterior of the Mahindra FURIO has been crafted to display the sturdy build of the vehicle, and the interiors are insightfully crafted to give the driver the best on-road experience.

***MORE PROFIT GUARANTEED,
NO MATTER WHICH FURIO YOU CHOOSE.***

Whatever you transport with the Mahindra FURIO, you will bring in more profits than ever before. Be it fruits, vegetables, milk, industrial goods, auto components, sand or cement, the FURIO is built to outperform on the road and in the account books too. All thanks to the mDi Tech engine and the FuelSmart technology which work together to optimise fuel-efficiency, the overall comfort and a driving experience that is nothing less than world-class. More than anything, the assurance of 'Get more profit or give the truck back' makes any FURIO truly incomparable.

WHAT DRIVES THE FURIO?

This business-changing truck is powered by the **3.5 litre mDi Tech FuelSmart engine**. This powerful 140kW engine is **super-efficient, low on friction** and most importantly, backed by over 10 years of Mahindra's CRDe expertise.

The FURIO engine is **BS-IV compliant** and has an **1800 bar common rail system** that delivers a unique combination of higher power and higher fuel economy. A **hydraulic lash adjuster (HLA)** means no more tappet setting every now and then. Same with the **auto belt tensioner** which sets itself and requires no manual adjustments. Then there's the **gear driven air compressor** which further enhances engine reliability.

mDi Tech

FUELSMART MILEAGE AND POWER AT THE TOUCH OF A SWITCH.

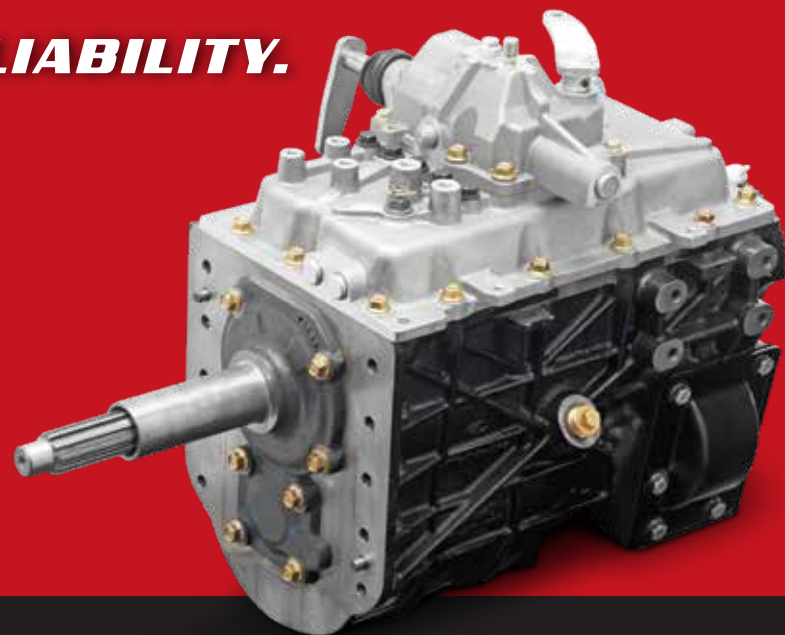

Developed by Mahindra to give your business a competitive edge, the FuelSmart technology lets you choose between superior mileage and optimum power as and when your business demands.

Turn on the Heavy mode when carrying full loads. Use the Turbo mode when transporting big loads over steep inclines. Or simply switch on the Light mode when running without load. Each mode squeezes the maximum efficiency from the mDiTech FuelSmart engine.

RUGGED AGGREGATES FOR UNFAILING RELIABILITY.

The FURIO is as much about reliability as it is about profitability. Its **gearbox** is made in-house by Mahindra, bringing in years of understanding of the Indian road conditions. A **6-speed overdrive transmission** makes this truck ideal for highway driving. The thoughtful gear-spread ratio gives you superior driving performance in every gear. Gear shifting itself is precise and smooth thanks to the **cable shift** and **double synchrocone**. And the main shaft has **deep groove ball bearings** for better efficiency for extended periods of time.

When it comes to the clutch, you'll see the same design philosophy. A **bigger, 362mm diameter organic clutch** provides more contact area and better power transmission without slippage. It comes with a **booster** that leads to lower effort in clutch operation. The LUK B 8090 clutch also has a **higher lining life** which translates into **lower maintenance cost**. And the best aspect of this clutch is the **wear indicator** that lets you know when it is time to replace it.

The heavy-duty **Banjo Rear axle** is no different when it comes to reliability. It has an optimized **rear axle ratio** that goes a long way in ensuring **higher fuel efficiency**. Then there's the bigger crown wheel diameter that delivers higher power transmission. And the **optimised gradeability** allows this truck to climb steep inclines effortlessly even with a full load.

ANY TERRAIN, NO PROBLEM. ANY WEIGHT, NO PROBLEM.

The suspension of the FURIO follows the classic Mahindra reliability in its design and build. This rear, semi-elliptical suspension is **heavy duty** and has the capability to take on the toughest driving and load conditions **without any need for additional leaves**.

The chassis is designed for typical Indian habits and road conditions. Its **I Section** and **Tubular** type chassis member gives it superior strength. Built using **high-strength, low alloy material (HSLA 550)** with powder coated cross members and CED coated long members, the chassis has significant durability. Made with customer convenience in mind, this chassis has a **bolted construction** that allows for easy repairs whenever needed.

FURIO¹⁴

MODEL	FURIO 14
GVW	14000 kg
Engine	mDi Tech, 4 cylinder, BS-IV with FuelSmart technology
Max. Power	140 kW @ 2400 r/min
Max. Torque	525 Nm @ 1250-1800 r/min (with multi-mode)
Transmission	6 speed Overdrive Synchro Gearbox
Tyres	8.25R20
Fuel Tank Capacity	190 litre
Cabin	2.05 m Day with Blower
Variant	HSD (CBC, FSD and OSD options available)
Wheelbase	4500 mm
Internal Load Body Size*	Internal-Length x Width x Height: 5796 mm X 2135 mm x 1900 mm

A WORLD-CLASS DRIVING EXPERIENCE.

Ergonomically designed cabin with 8 Air Vents, 4 Spoke Tilt and Telescopic Power Steering

Mahindra FURIO has been designed and styled at Pininfarina, the Italian design arm of Mahindra, and the name behind the ground-breaking designs of many renowned automobile brands. The FURIO's design comes from invaluable customer insights. Keen attention has been paid to enhance the driving experience with special emphasis on a wider windshield for better visibility and safety.

MAXIMUM COMFORT LEADS TO MAXIMUM EARNINGS.

Provision for two people to rest during stopovers

1st in ICV Segment

Ergonomically designed for a top-of-the-line driving experience, the FURIO exceeds your expectations of comfort by a wide margin. It gives you a new-age driving experience that was never available in trucks before.

*The dashboard is not just attractive, it also comes with an intelligent **Digital Instrument Cluster**, provision for a **music system** and most importantly, **8 air vents** for superior cabin ventilation. The driver's seat has a **4-way adjustable setting** to offer the most optimum driving posture. Add to this the **tilt and telescopic steering** and you have a truck that allows you to make small adjustments for big driving comfort. Now what does this all mean? Simple, more trips, even more earnings!*

4-Way Adjustable Driver and Co-Driver Seat

Lowest Rake Angle allows lesser sunlight in the cabin and keeps it cooler

Front Parabolic Suspension for higher ride comfort

ENHANCED SAFETY FOR HIGHER UPTIME AND MORE EARNINGS.

The Mahindra FURIO pushes the category standards for safety even higher. A **wide windshield** gives greater visibility to the driver and aids in higher awareness of the area around the truck. **Dual chamber headlamps** provide longer light-throw to increase the safety quotient. **Fog cum Cornering lamps**, a first in the ICV segment, increase visibility around turns at night and also add extra assurance in the monsoons or in foggy, overcast conditions. The **metallic bumper and fenders** protect the main body of the truck and act as reinforcements in case of a collision. You will be happier to know that the FURIO's cabin meets the **ECE R29 R02 crash norms** and is the safest in its class. A **10-bar air brake system** gives you superior braking performance just when it is most needed. The chassis is made with a **high strength low alloy (HSLA 550)** material which gives the FURIO a solid and reassuring stability and an **anti-roll bar** enhances this stability even further.

Now for a small but extremely thoughtful feature. This truck **starts in neutral gear** only. Which means a little bit of forgetfulness won't have any big consequence.

High Strength Low Alloy (HSLA) material chassis

10 Bar Air Brake System : Superior Braking Performance

Wide Windshield - Clear visibility

1st in ICV Segment
Dual Chamber Head Lamp. Fog Cum Cornering Lamp.

Anti-Roll Bar (ARB) - for better stability

Metallic Fenders

Metallic Bumper

MORE CONVENIENCE MEANS MORE PRODUCTIVITY MEANS MORE PROFITS.

You will see a lot of thoughtfulness in the Mahindra FURIO. Both on the inside and on the outside. **Extra large hooks** on the cargo body allow you to tie-down whatever you are transporting even more securely. The **boltable super structure** is removable and is a huge convenience factor in case you ever want to change the body. A **side ladder** provides quick and easy access to the cargo body. The FURIO also comes with an inbuilt **provision to mount** an Overhead Carrier or AeroKit to prevent external welding on the cabin or punching holes in it.

On the inside, the ergonomically designed **walk-through cabin** makes movement easy and gives the driver and co-driver comfortable seating space. There's ample storage space inside the cabin with a **head box**, **lockable storage** under the co-driver's seat and **glove box**. You will even find a **utility pocket** and **speaker provision** on the inside of the door. Like we said, there's a lot of thinking that has gone into the FURIO.

Walk-through cabin

Driver Information System (DIS)

The digital display in the **Driver Information System (DIS)** is an intelligent system that enables the driver to quickly check the vital information of the truck and constantly monitor its performance. To provide a clear picture of all the performance statistics of the truck at a quick glance at all times. Yes, we thought of hundreds of ways to make you more productive.

Provision for overhead carrier

Side Ladder for easy climbing

Lockable Storage
under co-driver seat

Lockable Storage

Door with Utility Pocket and
Speaker Provision

TO OUTPERFORM, YOU HAVE TO OUTBUILD FIRST.

The Greenfield Plant in Chakan, one of the most advanced manufacturing plants in India, is where Mahindra FURIO trucks are created. Massive in scale, the Chakan Plant is also renowned for its micro-attention to detail. Each vehicle is put together with robotic precision and utmost care to ensure the highest standard of reliability. A young, enthusiastic and well-trained group of technicians ensure the quality of every vehicle that rolls out from this plant. The plant's cutting-edge technology and sustainable practices make it a facility that's ready to roll out generations of outperforming vehicles.

ABOUT MAHINDRA

The Mahindra Group focuses on enabling people to rise through solutions that power mobility, drive rural prosperity, enhance urban lifestyles and increase business efficiency.

A USD 20.7 billion multinational group based in Mumbai, India, Mahindra provides employment opportunities to over 200,000 people in over 100 countries. The Group operates in the key industries that drive economic growth, enjoying a leadership position in tractors, utility vehicles, information technology, financial services and vacation ownership. In addition, Mahindra enjoys a strong presence in the agribusiness, aerospace, components, consulting services, defence, energy, industrial equipment, logistics, real estate, retail, steel, commercial vehicles and two-wheeler industries.

In 2014, Mahindra featured on the Forbes Global 2000, a comprehensive listing of the world's largest, most powerful public companies, as measured by revenue, profit, assets and market value. The Mahindra Group also received the Financial Times 'Boldness in Business' Award in the 'Emerging Markets' category in 2013.

GIVE YOUR BUSINESS THE EDGE OF AWARD WINNING TRUCKS.

- 2011: CV and HCV of the year - 25 tonne
- 2012: Prime mover of the year - 40 tonne
- 2013: Haulage Tipper of the year - TORRO 31
- 2014: Cargo Carrier of the year - TORRO 25

- 2017: CV and HCV of the year - BLAZO 37
- 2018: MHCV Tipper of the year - BLAZO 25

INITIATIVES TO TRANSFORM INDIAN TRANSPORT INSIDE OUT.

TOUR DE CHAKAN: This is a one-of-its-kind initiative that presents customers a unique tour of Mahindra's state-of-the-art Chakan plant. So they can see the entire truck manufacturing process, the technology and quality control that goes into making Mahindra's trucks the outperforming machines that they truly are.

D-EXCEL: Mahindra Truck and Bus decided to work with IIM-A, to develop a program that provides guidance, new thinking and techniques to help dealers improve their business. This program covers specific areas, like profitability, better customer experience, data driven decisions, people management etc.

MAHINDRA TRANSPORT EXCELLENCE AWARDS: The Mahindra Transport Excellence Awards turn the spotlight on excellence in the transport industry. Over the , the awards have consistently widened their scope by adding new categories to recognise and reward excellence in many more areas of Indian transport.

MPOWER: Launched in association with IIM - Ahmedabad as the Knowledge Partner, MPOWER helps young professionals in the transport industry meet today's challenges and take their business to new heights. The programme has received widespread appreciation in the Indian transport industry and has seen over 200 young transport entrepreneurs completing the course.

MPOWER WAR ROOM: They say that learning isn't complete till it is actually applied. That's exactly the idea behind the MPOWER WAR ROOM. Through this programme, participants can present how they have applied their MPOWER learning and advanced their family transport businesses. The programme also gives participants an opportunity to learn from each other's experiences and build deeper ties with one another. Also conducted in association with IIM-A, the WAR ROOM has seen two editions and nearly 50 participants.

MPOWER MENTORS SUMMIT: This is a collective learning programme specially designed to empower the mentors of the Indian Trucking Industry. It offers industry veterans a platform to share their views on transport with other fleet owners, seasoned professionals and also interact with the IIM-A faculty to discuss and guide the next generation of transporters.

SAARTHI ABHIYAAN: Staying true to Mahindra's philosophy of 'Rise', Saarthi Abhiyaan, a unique social project was started. It supports truck drivers and their families through health camps, scholarships, driver training programmes and more.
